*I remember the day Trevor and I walked into the pet shop, Trevor picked Kitty out of 7 cats, Kitty made eye contact with Trevor and I knew he was the pet for our family. From the moment we brought*

*Kitty home 16 years ago, he was a handsome fluffy cat, always in the mix of things in a great way! He would make us laugh so hard when he chased the laser light on the floor in circles and he had a 4 pet only rule, if you went past 4 times you were reprimanded immediately (haha) with a firm swat. He also was not afraid to live life and be where he wanted to be when he wanted to be there, even if it meant being face to face with a huge German Shepard dog from next door with a simple chain link fence between them while sunning in the flower garden. I remember Kitty also took a week vacation at a nice house when it was for sale and vacant, he had gotten "lost" for a week in our neighborhood, he was found sunning himself leisurely on the front porch and was so happy to see Alexis and Trevor when they picked him up from the porch. He also loved to run outside when the door opened and roll around in the grass and liked to take in nature, a breeze, the warm sun and bird watching. We loved Kitty very much and I am so thankful he was a part of our lives. Trevor and Alexis grew up along with Kitty and he added so much happiness, love and many great memories. Alexis & Tim were great with Kitty his last years in life and took wonderful loving care of him. May Kitty rest in peace and know that we love him and he will be with us always in our hearts.*

*My latest memory of big kitty would be when I cleaned the apartment, he kept clawing at the gate door. He was always so cuddly looking and would have loved to held him many times but he wouldn't let me. He seemed to mind his own business and did his own thing. Like sit on the table by the window ??*
