“Bogie you were the best cat I could not ever imagine how much you would love my kids. You were amazing with them. You would let your girl dress you up from the time she was 2 up until you got sick. You would also sit with you boy when he was play and just wanted to be close. You comforted them when they were sad or crying. You gave the best hugs and loved to sit on the porch while I read a book. Im going to miss you always coming to see what groceries i was bringing in the house and then always laying on the bags after i emptied them. We going to miss you Rest easy my sweet boy im glad you are healthy now see you again one day.
