

Cloudy Borst

March 26, 2013 - August 2, 2023

Cloudy was born on March 26, 2013, in Dayton, PA, as the runt of the litter. Little did the Borst family know, he'd soon become such an important family member.

After a tragic accident to his mother, Cloudy (who didn't have that name at the time) was being bottle fed by Darrin, a co-worker of his then owner. It didn't take long for the little guy to melt Darrin's heart. After the standard six-to-eight weeks, Cloudy was off to join Darrin and the rest of the family at his furever home.

Over the next 10 years, Cloudy brought numerous smiles and headbutts to his not-so-furry family. He will be forever remembered as a laid-back guy who spent his winters snuggled up on the back of the sofa near the furnace vent but was all the while warming the hearts of his family.

He truly was one of a kind and left a pawprint on the hearts of his family that will never fade.

He is survived by two adopted furry siblings, Cy and Apache, one of whom will miss him immensely.
