AD

“ *She was the most loveable little soul...she adored her mommy Judy...never left her side...I was blest to be a part of her life...I will miss her with all my heart...she's in heaven...she passed away on the same exact day of my beloved buster one year apart so I know he was there to welcome her into heavens gates...It's gonna be hard to look out my front window and not see her following her mommy Judy at her heels everywhere she would walk...gone but will never ever be forgotten....soar with the angels...you were a blessing to every life you touched...you fought a hard health battel but now you are at peace...*
