“ *Ellie had five humans in her life, that she absolutely adored. Me, Zane, Noah, Haylee, and Raul. Three of us took her to AVets, which meant two of her humans were not there. This is the love of animals....❤️ I truly, truly believe that she rallied and hung on, in order to see her other two humans again... Zane and Paul. Once she had that time with them, she decided it was time to go. This is the love of animals....❤️ She was rambunctious. She was very high energy. She was very puppy-like, her entire life. She never mellowed. She wiggled so much when she saw her humans, that she nearly broke in half, and would always hit herself in the face, with her tail wagging at 90 mph. This is the love of animals...*
