Janice Shehand (Jessilynn's Mommy) posted a condolence

Monday, August 26, 2019

Jessilynn was a sweet lovable shih tzu. She loved to play fetch (was a great retriever of balls) and she loved playing with her stuffed musical toy animals. Jessilynn was a protector of her younger sister Maribelle and often played aka wrestled, tumbled with Maribelle. Jessilynn was full of giving kisses, being there for me in good and bad times, loved to go for walks (her former Dr. Steve Findlay said that she had great bicep muscles from her daily walks). Jessilynn lived for being loved, petted, entertained all with her howling on demand aka singing for a minute at a time for anyone who requested it by calling out her name! She was so so precious to me and loved to visit the elderly and make them smile. Jessilynn was often seen being cradled and loved by all for she comforted the elderly too with her fabulous disposition! She wagged her tail many times every day for anyone who said a kind word or gesture to her! She loved her Smart Bones, real chicken breast treats, broccoli, bananas, and cherry tomatoes too as a treat! She captured the heart of my hubby for the last 1.5 yrs of her life that he was in. No matter how I'll she felt, she always was a pleasant little girl who was happy to just be near those who loved her. Jessilynn was my best friend and I hope to greet her at heavens gates one day. I will love you forever my baby girl Jessilynn! Run free and play with those that left this great earth before you! Love from your Mommy, Maribelle, Eddie and Carl, Abby and Dakota! I will miss you dearly and you will always be in my heart, my baby girl! A special thanks to her vet Dr. Brian Krazel and the entire St. Francis Animal Hospital staff who did all that they could to help her hold onto her life for as long as she could
