

Mercedes McCluskey

May 10, 2002 - June 20, 2024

Mercedes had a full life. She loved drinking from the faucet and eating her morning treats. She always let her humans know what she wanted. She was very vocal about wanting catnip and would sit until you put it inside her toy. Mercedes would sit everyday in the same spot and meow, until she received her daily brushing.

Prior to their passing, Mercedes loved hanging out with her dog brothers. She would pounce on them and then love them. They spent all day together. She also loved people. She was friendly and would cuddle up to anyone. She listened so well, that I believed she was another dog. She would come, play fetch and greet me at the door. She was also known to say "hello". I will never have another "Kitty" like her. She will be missed. Her dog brothers and my parents are waiting to welcome her in Heaven.

Rest well Kitty.
