“ We adopted Patches 2 1/2 years ago from Gray Paws Sanctuary. She had markings on her back in the shape of angels wings and an angel she certainly was! She was the light in our hearts. She was fascinated by big trucks like Amazon, UPS, the mail truck, etc...She perched herself on our ottoman and just watched out the window for them. She could see them before anyone else! Patches traveled with us to the beach and to New York. She loved walks (even though she walked at a very slow pace and would often times just stop and lay down 😊) and riding in the car. But most of all Patches was the ultimate couch potato and thats where you could usually find her.

We miss her with all our hearts and beyond measure. 2 1/2 years just wasn't long enough with this precious bull dog 💔
