TL

“ Penny was my first dog that I owned myself. I adopted her from a shelter in Orlando February 2014. She was dropped off there from her previous owners. She was 6 months old when I got her. There definitely was a learning curve with her, but we eventually figured each other out. While she wasn't much of a fan of outsiders she loved me with all her heart. Her love ended up growing to my wife when we met years down the road. She ended up getting 2 other dog siblings who she adored, especially the lab. He passed over a year ago and her play buddy was gone but she still was a happy pup. I wish I had more time with her as 11 years wasn't enough. We are going to miss you Penny, especially me. You were a huge part of my life! I hope you're happy and playing with Junior. I'll never forget you! ❤️❤️💔💔
