

## Punkin Morrell

October 1, 2005 - February 8, 2023

Punkin was an awesome cat. We had him almost 18 years.

He loved my lap, and as you can see from one of the photos on the video he and his sister always fought for the spot.

He ate all kinds of people food. He loved cheese, any kind. He loved ice cream, potato chips, cottage cheese, popcorn and anything else I would have on my plate. But, his absolute favorite was Pizzelles. When I would make them and he heard the woosh of the first ones being put in the iron, he would run into the kitchen and wait, meowing all the while, because he knew he always got the first one after it cooled. He was always thin but ate the most of all my cats. He has one floppy ear from a hematoma a few years back. But he looked cute, and it made Punkin, Punkin. He was a cuddler and he loved to get his butt smacked. Until he became ill right before Christmas, he had a ritual where every day my husband came up and gave him his daily butt smacks. When he slept with me his face had to be in my face. He had to be that close.

Punkin was a great cat, and I will truly miss him for a long time.
