“ *Tiller, you will never be forgotten.*

Never did we expect to go into Petland Norwin and fall in love with another cat. We weren't even looking to add to our family but there you were with your magenta colored collar. You were a gentle giant. We thought you were an adult cat but came to find out you were just nine months old and still growing and growing and growing.

You were the bestest boy ever with the most amazing personality and best head nudgies we could ever ask for. You brought us so much joy. You we're such a good boy that I'm not even sure you ever hissed. We're going to miss you constantly begging for treats at all times of the day and smacking your lips indicating you wanted treats right that second. You'll be missed when we go to use the laptop or have any paper on the table as that was one of your most favorite things to do so we had to pay attention to you. And all the times you knew we were having a bad day and how you sat by our sides to make it better. You were one of a kind.

You are missed so terribly. What we'd give to even have one more day so we could give you all the treats you deserved 💔 We love you so much Tiller, aka Tiller Marshall, aka Till, aka Tillwer, aka Till Kill, aka Love Bug.
