

## Tootsie Ruane

May 28, 2010 - January 6, 2026

Tootsie Ruane

Relinquished to us in December 2017 from her original Daddy who fell ill, the little porker lived out the next 8 years with her second owners, her "Aunt and Uncle", and a varying number of roommates over the years.

Diagnosed with a heart murmur early on, she easily moved through life with medications and all the comforts a troublesome breathing Shih Tzu needed. "Tootie Wootie". as her Aunt called her, was a traveler who tired easily on long and short walks-alike but always found the best way back to her bed being carried by her Aunt.

Shying away from a cat paw swipe, but never taking any bullying from dogs much larger than her, "Little White Dog" as her Uncle dubbed her, is missed by her second owners, the strays and rescues that came before and during her stay, and is now back with Daddy who preceded her in death by almost 6 years.
