“ *La fuerte 🐾🐾🐾 bienvenida que nos daba cuando llegábamos a su casa....so excited to see her prima Princesa*

DA

“ *We've been pals and good friends for a long time. We had a lot of good memories running around the yard, up and down the street, and wrestling at home. It won't be the same without you. Who is going to run to the door dancing with excitement to say hello when I get home? Or make me wear earbuds at night so I sleep well? Or demand to go outside as soon as I get home, even if they literally just came in minutes prior?*

*It won't be the same without you and no other pet will ever take your place. Miss you buddy.*
